Solar Panels

Free, no-obligations survey

3d modelling shows you how installation will look

Game-changing technology

Forecasting power generation & savings

Award-winning renewable products

Handpicked for quality and performance

Quick installation from expert technicians

We guide you through the planning process

Solar powering your future

When you install solar panels, you're generating your own sustainable energy – reducing your bills and reliance on the grid as well as your carbon footprint. So it's unsurprising that growing numbers of home owners in France and around the globe are turning to the sun to power their homes.

But with the proliferation of companies offering solar panels, how are you supposed to know which are the best?

We're renewable energy experts. We've conducted extensive research into organisations that design and manufacture solar panels. And we've chosen to partner with two companies whose panels perform at the highest levels, whatever the weather conditions.

For the majority of our installations, we use Q CELLS' high performing Q.PEAK DUO-G6 panels, which can be installed on your roof or on the ground. If you have a larger property or more extensive grounds, we recommend Sunport's Benchmark II SPP310-350N60H panels. We'll talk you through all the options and recommend the one that's most suited to your home.

This table outlines some of the key areas where Q CELLS and Sunport impressed our experts – but please keep reading if you're looking for comprehensive technical specifications for both products.

Q CELLS

Q.PEAK DUO-G6 345-355

- ✓ High yield per surface area & efficiency rate of up to 20.1%
- ✓ All-weather technology – Strong low-light & temperature performance
- ✓ Certified for high snow and wind loads
- ✓ 12-year product warranty
- ✓ 25-year linear performance warranty

Benchmark II SPP310-350N60H

- ✓ Efficiency rate of up to 20.51%
- ✓ Low degradation – At least 98% of initial effective output at 1st year and 82% at 30th
- ✓ Heat resistant – Peak performance on hot days
- ✓ Corrosion resistant
- ✓ 30-year performance warranty
